Calendars

A calendar is a tool we use to keep track of DAYS, WEEKS, and MONTHS in a year.

CALENDAR FACTS:

- There are 12 months in a year and EACH month has 28, 30, or 31 days.
- In the United States, calendars start on a Sunday.
- The first day of a new month is the day of the week AFTER the last day of the month before it.

Calendar Activity

This is an easy activity to do with your class to help them practice reading a calendar. Make enough copies of the following calendars for each student in your class. Give each student one calendar and the calendar activity worksheet. Once students finish one, you could have them get a new month and do it again!

Use this for practice, center activity, or assessment!

Laminate for durability!
